

Efrat Lifshitz

Professor of Chemistry

Schulich Faculty of Chemistry and Solid-State Institute,
Technion, Haifa-32000, Israel

Tel. (Office): +972 (0)4 829-3987

Israel Mobile: +972 52 664 2111

email: ssefrat@technion.ac.il;

PERSONAL INFORMATION

Date of birth: July 5, 1956.

EDUCATION

- 1981–1984 Ph.D., Physical Chemistry, University of Michigan, Ann Arbor, Michigan, USA
1979–1981 M.Sc., Physical Chemistry, University of Michigan, Ann Arbor, Michigan, USA
1976–1979 B.A., Chemistry, Hebrew University of Jerusalem, Israel

ACADEMIC EMPLOYMENT

- 2024–present **Dean, Schulich Faculty of Chemistry, Technion–Israel Institute of Technology**
1990–present **Technion–Israel Institute of Technology, at the Schulich Faculty of Chemistry:**
2009–present, **Gunsbuourgh Academic Chair**
2005–present, **Full Professor**
1996–2005, Associate Professor
1990–1996, Assistant Professor
1986–1990 Research Associate, Chemistry Department, University of Michigan, USA
1984–1985 Postdoctoral Fellow, Isotope Department, Weizmann Institute of Science, Israel
1979–1983 Research and Teaching Assistant, University of Michigan, USA

VISITING PROFESSORSHIP

- 2023 Visiting Professor, National University of Seoul, Department of Physics, Seoul, South Korea
2023 Visitor, Imperial College and Cambridge, England
2018 Visiting Professor, Columbia University, Department of Chemistry, New York City, USA
2015 Visiting Professor, Freiburg Institute of Advanced Studies, University of Freiburg, Freiburg, Germany; Oxford University, Oxford, England
2012 Visiting Professor, Renewable Energy Centre, Columbia University, New York City, USA, and at the Department of Physics, Ludwig Maximilian University, Munich, Germany
2006 Visiting Professor, Photonic Institute, University of Lyon1, Lyon, France
2003 Visiting Professor, Chemistry Department, University of Hamburg, Germany
1996 Visiting Professor, Chemistry Department, University of California, Berkeley, USA

MAJOR SCIENTIFIC ACHIEVEMENTS

Pioneering contribution to the arena of low-dimensional semiconductor solids with a recognized impact on the development of new nanostructures and a thorough exploration of the interface between magnetism and their optical properties, accompanied by the study of special effects like spin-orbit coupling, Auger relaxation, Rashba effect, electron-nuclei, and electron-electron spin-exchange couplings, anisotropy in g-factors, as well as the creation of local or global magnetism. The studies were carried out with the skilled use of spectroscopic tools (e.g., optically detected magnetic resonance or microwave modulation spectroscopy) corroborated by theoretical models. A few unique contributions include (a) paying special attention to the role of surface and interface centres, achieving suppression of an Auger process in core/shell QDs, and the appearance of multiple excitons in a single particle luminescence via the formation of alloying composition at the core/shell interface. Also, intentional incorporation of magnetic dopants involving guest-host spin-exchange interaction, consequentially tuning the magneto-optical properties; (b) proving anharmonicity and Rashba effect in perovskite materials, seen as an energy split and circularly polarized emission in a single QD or a bulk crystal. This effect was also accompanied by an Overhauser effect, the electron-nuclear interaction. (c) Exposing a strong correlation between long-range magnetic order (Ferro- or Anti-ferromagnetic) and optical properties of magnetic van der Waals semiconductors (MPS₃). The mentioned highlights have essential impacts on emerging spin-electronic and spin-optical properties.

AWARDS AND FELLOWSHIPS

Selective list (recent years): Lectureship Award, Project Center, Dresden University (**2023**); Excellent Lecturer, Nanotechnology Center, ETH, Zurich (**2023**); Taub, Excellence in Science Award, Technion, Israel Institute of Technology (**2019**); Lectureship speaker, Birkent University, Ankara, Turkey (**2018**); The 2016 Israel Vacuum Society Excellence Award for Research (**2016**); Lectureship speaker, ETH, Switzerland (**2016**); UK-Israel Lectureship Award, Oxford University (**2015**); Tenne Family Prize in Memory of Lea Tenne for Nanoscale Sciences, awarded by the Israel Chemical Society (**2015**); Fellow of the Freiburg Institute of Advanced Studies, University of Freiburg (2015); Matwei Gunsbuourgh Academic Chair at the Technion (**2009**).

Grants (selective list): EC-NMP "Nanospec" (**2010-2014**); EC-NMP "SANS" (**2010-2014**); GIF (partner: LMU) (**2011-2015**); VW-Foundation (**2014-2018**); ISF-Bikura (**2014-2018**); EC-Horizon2020 Marie Curie-ITN (**2016-2019**); ISF-regular (**2015-2019**); ISF-China-Israel, (**2017-2021**); BSF-regular (partner: Washington Univ.) (**2017-2022**); NSF-BSF (partner: Columbia Univ.) (**2018-2021**); ISF-regular (**2019-2013**); BSF-regular (partner: Washington Univ.) (**2021-2025**); MOST (partner: HUJ) (**2011-2014**); Kamin (partner: Ariel Univ.) (**2012-2014**); MAAFAT (2014-2018); MOST (partner: Technion) (**2018-2021**); Kamin (partner: Technion) (**2020-2022**); Deutsch-Israel Program (partners: BIU, Duisburg, Dresden) (**2022-2027**); NOFAR-Maymad (partner: Technion) (**2022-2024**).

MEMBERSHIP ON EDITORIAL BOARDS

Guest Editor of *J. Chemical Physics* for a special issue on Transport properties in low dimensional Materials (**2021**); Editorial Board of *Nanomaterials* (**2020-present**); Editorial Board of *Materials*, (**2018 – present**); Editorial Advisor of the *Advanced Device Materials Journal* (**2014-present**) and *PhysChemPhys* (**2010-2017**); Guest Editor of the *Journal of Chemical Physics* for a special issue on the Transport of Charge and Energy in Low-Dimensional Materials (**2022**); Guest Editor of *PhysChemPhys* for a special issue on Frontier in Colloidal Quantum Dots (**2014**); the *Israel Journal of Chemistry* for a special issue on Magnetic Resonance and Spintronics (**2006**).

ORGANISATION OF SCIENTIFIC MEETINGS

Selective list: Chairperson of the Material Research Society on 2D Materials, November **2023**; Chairperson of Gordon Research Conference on Colloidal Nanostructure and Nanocrystals, July **2024**; Co-chair of Gordon Research Conference on Colloidal Nanostructure and Nanocrystals, July **2022**; Member of the program committee at the Optics of Excitons in Confined Systems (OECS), September **2021**; Chairperson of nanoGe- 2D materials, October 2021; Chairperson of the Quantsol, March **2019**; Chairperson of the nanoGe meeting on 2D materials, September **2019**. Chairperson of the PHONSI meeting (Marie Curie European Community Program) February **2017**; Member of the program committee at the Optics of Excitons in Confined Systems (OECS) July **2018**; Member of the program committee for nanomaterials at the 2017 NOMA conference, part of the OSA Advanced Photonics Congress, August **2017**; Chairperson of the Quantsol International Meeting, March **2015**; Chairperson of a nanoGe International Meeting with a Nobel Laureate speaker on the topic of Fundamental Properties in the Chemistry and Physics of Colloidal Quantum Dots, September **2014**.

INVITED PRESENTATIONS AT RENOWNED INTERNATIONAL CONFERENCES AND ADVANCED SCHOOLS

Selective list (out of >120): Flatlands Beyond Graphene (September **2022**, July **2019** and September **2018**); Hybrid Nanomaterials, October **2022**; NANOMEETING on 2D-Materials, September **2021**; NanoGe-CQDs, July **2020**; Spins in 2D magnets, August **2020**; NanoGe-Colloidal 2D Material, October **2020**; NanoGe-Perovskites, October **2020**; Keynote Speaker, NanoGe, September **2019**; Material Research Society on Perovskite Materials, November **2019**; Quantsol Meeting, March **2019**; E-MRS, on Perovskite Materials, September **2018**; Plenary Talk, Nanoday, Bilkent University, May **2018**; NanoGe-2D Materials, September **2018**; Quantsol, March 2018; Optical Materials and Applications, July **2017**; American Vacuum Society, August **2017**; NanoGe on Two-dimensional, April **2017**; Plenary talk at the Annual Israel Vacuum Society meeting, September **2016**; NanoGe on Fundamental Properties in the Chemistry and Physics of Colloidal Quantum Dots, September **2016**; NanoGe on Solar 2D Materials, Berlin, **2016**; 2nd Greece-Israel meeting in Nanoscience and Nanotechnology, September **2016**; Plenary talk at the IPS 21, St. Petersburg, June **2016**; Gordon Conference on Colloidal Quantum Dots, July **2016**; 80th birthday of Prof. Art Nozik, Boulder, April **2016**; NanoGe-Fundamental Properties in the Chemistry and Physics of Colloidal Quantum Dots, September **2015**.

COMMISSIONS OF TRUST

Selective list: Member of the Scientific Board of Nanotechnology Centre at Bilkent University, Turkey (2022-on); Chair, Israel Ministry of Science, Material division (2020); Member of the ERC Synergy Program (2019); Member of the ERC Advance Program (2010–2014); Scientific Committee of a COST FP7 Program (2007–2009); Member of the Wolf Prize Committee in Chemistry (2006–2008); Trustee of the German-Israel Foundation Board (2005–2010) & (2000–present); Member of the Scientific Committee of the Rothschild Foundation of Postdoctoral Fellowships (2009–2011); Member of the Scientific Committee of the Israel Prize in Chemistry (2006); Chairperson or a member of numerous scientific committees for competitive research funds in Israel, as well as of the binational science programs: Israel Science Foundation (multiple times), German-Israel Foundation, USA-Israel Binational Science Foundation. A reviewer of numerous international and national funding agencies.

SUPERVISION AND TEACHING ACTIVITIES

- Advised ~40 Ph.D. students, 19 M.Sc. students, 17 postdoctoral and research fellows, and 12 undergraduate students. Currently advising 9 graduate students and 2 postdoctoral fellows. The graduated students currently hold postdoc positions, are members of the established or start-up companies, and young faculty members at academic institutes in Israel and abroad (Technion, Ben-Gurion, Ariel, HUJI; Mason, Michigan (USA), Goa (India)).
- Undergraduate courses: General Chemistry, Thermodynamics, Group Theory, Molecular Spectroscopy, Electronics for Chemists, Introduction to Solid State (1990–present).
- Graduate courses: Advanced Spectroscopy, Advanced Methodologies in Physical Chemistry, Chemistry of Semiconductors, Chemistry and Physics of Small Systems, Photovoltaic Devices, Physical Chemistry of Quantum materials (1990–present).

INSTITUTIONAL RESPONSIBILITIES

Selective list: Member of the academic promotion committee, Technion (2021–present); Member of Quantum Centre Infrastructure Committee (2019–present); **Co-founder** of the Interdisciplinary **Nanotechnology Institute**, \$90,000,000 project (2002–2005); Board Member of the Nanotechnology Institute (2005–present); Board Member of the Renewable Energy Centre, \$50,000,000 project (2009–2011); Member of the Technion Senate and the Senate Research and Academic Committees (2006–present); Board Member of Multidisciplinary Graduate Programs Committee Nanotechnology (2005–present) of the Energy Program (2009–present); Departmental activities (1991–present).

MEMBERSHIPS OF SCIENTIFIC SOCIETIES

American Chemical Society; American Material Research Society; European Material Research Society; Israel Chemical Society; European Quantum Solar Energy Society; Israel Vacuum Society, American Vacuum Society, Nano-Optical-Materials of the Optical Society of America (NOMA).
